

Abstract of the Disclosure

The present invention provides a method and system  
5 for direct access to the multimedia mailbox associated  
with a wireless unit. The wireless unit subscribes to  
the direct multimedia mail service. A calling unit, such  
as a wireline phone, wireless phone, or mobile phone,  
sends a call request requesting a direct multimedia mail  
10 message be sent to the subscriber to the direct  
multimedia mail service. The calling unit will be  
directed directly to the multimedia mailbox of the  
subscribing wireless unit, without ringing or alerting  
the called wireless unit to the communication with the  
15 multimedia mailbox.
